## **Piper performance cams for Toyota Celica and Lotus Exige**

Piper now offer fast road performance camshafts for the Toyota Celica 1.8 VVT-Li 190bhp engine (with Variable Valve Timing & Lift - intelligent VVTL-i system). These cams are equally suitable for the Lotus Exige which uses basically the same engine.

As standard the 1.8 VVT-Li engine suffers from a "dip" in the torque curve. Piper have developed a pair of cams to cure this problem and give a constant torque curve throughout the rev band.

The Piper BP270 fast road cams will give another 10bhp at the top end and, more impressively, another 25lb/ft at 5800 rpm (As independantly tested by P.B.Racing Lotus specialists in Italy).

The Piper BP270 fast road cams are CNC profiled from chill cast blanks and retail at £530.00 + vat for the pair.

**For more details contact Piper on +44 1233 500 200 or visit their website at  
[www.pipercams.co.uk](http://www.pipercams.co.uk)**
