Piper lightweight vernier pulley and cam for Fiat Punto Turbo

Piper Cams have just released new lightweight vernier pulley for the Fiat Punto Turbo

This light dural pulley allows for simple, quick cam timing adjustment. The graded scale etched into the pulley allows you to advance or retard cam timing to one tenth of a degree to alter the torque/power characteristics of the engine precisely by increments.

The pulley is finished in anodised red, blue or black. These latest generation Piper pulleys feature aircraft quality material and hard anodised rims.

The Vernier Cam Pulley for the Fiat Punto Turbo retails at **£117.50** Inc VAT

The Piper lightweight pulley is ideal for use with Piper cams. Piper offer a range of cams ground from chill cast blanks for this engine:

BP270 fast road (+15bhp) **£229.13** incl VAT

BP285 ultimate road (+20bhp) **£229.13** incl VAT

**For more details contact Piper on +44 1233 500 200 or visit their website at
